QUAD-RUSH

4 Cutting Edges With Chip Former, For Grooving, Parting And Turning

Features

- 4 cutting edges for better economy
- Positive J type chipformer for excellent chip control and high quality surface finish grooving
- 3 contact points away from the cutting edges
- Accurate positioning of insert when indexing
- Even if edges are broken any remaining edge can be used
- Pocket protects unused edges from chips during the machining process.

Gold Rush grade TT9080 is the latest coating technology with multi-nano-layer for improved surface quality and tool life

SUCCESS STORY — Suitable for grooving, parting, lateral turning and chamfer machining; the QuadRush's unique four cutting edge insert line allows for excellent performance and repeatability on multiple applications making it the economical and efficient cutting tool. Check out Facebook for this and more success stories. [CLICK HERE FOR TAEGUTEC FACEBOOK SITE](#)

NEW PRODUCTS

Slotting with New 3-edge Mill Grooving Inserts

TaeguTec launched a new line of economic mill grooving inserts and cutters to optimally perform slot-machining across a wide range of industries including automotive and aerospace where the production of hydraulic components and precision groove milling is required. [Read More](#)

Chase2Hepta Line Expanded to 6mm Inserts

The Chase2Hepta 6 mm size inserts and cutters are now available to meet the challenges posed by technical trends in forging and casting technologies which is demanding higher productivity and economical tools that can handle lower depth of cut conditions. [Read More](#)

Mill2Rush ML Geometry for Difficult Materials

With the expansion of the Mill2Rush family of cutters, the new geometry selection widens the application range of the 6NGU line with improved performance on a variety materials and conditions. The "ML" chip former was adapted for low power consumption machines. [Read More](#)

PICTURE OF THE MONTH

Click Picture for More Views

FAST & FURIOUS — Emirati female police officers pose in front of Ferrari (R) and Lamborghini (L) police vehicles at the foot of the Burj Khalifa tower in Dubai. The Ferraris, a recent addition to Dubai's police car fleet, are reserved for policewomen. The introduction of luxury Italian cars to the police force is seen as a sign of economic recovery in the Gulf emirate. *AFP*

Look Back at the Int'l English Seminar

With spring in the air and the advent of a slew of customer seminars, TT-Times takes a look back at fall 2013's international English speaking seminar which attracted over 100 industry leaders from Europe, the Middle East, North America, the Pacific Islands and Southeast Asia. [View Pictures](#)

ENGINEERING JOKE

Joke Two

Reaching the end of a job interview, the Human Resources Manager asked the young engineer fresh out of university, "And what starting salary were you looking for?" The engineer said, "In the neighborhood of \$100,000 a year, depending on the benefit's package." The HR Manager said, "Well, what would you say to a package of \$200,000 a year, 5 weeks vacation, 14 paid holidays, full medical and dental, company matching retirement fund to 50% of salary, and a company car leased every 2 years - say, a red Mercedes?" The engineer sat up straight and said, "Wow!!! Are you joking?" And the HR Manager said, "Of course, ...but you started it."

COOL STUFF

10 Weird Inventions That Made Millions

This list explores the more unusual and perplexing products of human creativity, the kind that made a ton of money. It examines how they capitalized on novelty, how profitable they grew and how well (or poorly) some of them have aged. Who knows? Maybe a gadget from this gallimaufry will inspire your own flash of genius. [Visit Site](#)
