## PICTURE OF THE MONTH

*Click Picture for Larger View*

**DAM THIS** — The Three Gorges Dam that spans the Yangtze River, China, is the world's largest power station in terms of installed capacity. The dam is 2,335 meters long and 181 meters tall. Made of 27.2 million cubic meters of concrete and 463,000 tons of steel, it is enough to build 63 Eiffel Towers. *[Xinhua]*

## ENGINEERING JOKE

Share your Engineering Jokes by replying to this email. You won't win a prize but you will win a place on this newsletter and the satisfaction knowing that your joke was enjoyed by all.

"Hello, Bob? It's your father again.  
I have another question about my new computer. Can I tape a movie from cable TV then fax it from my VCR to my CD-ROM then E-mail it to my brother's cellular phone so he can make a copy on his neighbor's camcorder?"

### Joke Two

(Because Two is Better Than One)  
To the optimist, the glass is half full.  
To the pessimist, the glass is half empty.  
To the engineer, the glass is twice as big as it needs to be.
